

# **MONI\$ WHITEPAPER**

# About MONI\$

MONI\$ is an NFT collection of 5000 unique, randomly generated, stylish cats on the XRPL.

This project was born with the idea of developing an NFT collection based on our love for cats and especially a specific silly ginger cat named Moni.

A 3D rendered orange tabby cat with dark stripes, wearing black sunglasses and holding a clear glass with a drink and a straw. The cat is positioned on the left side of the image, looking towards the right. The background is a gradient of blue and purple.

# How XRPL makes this possible

But when we had this idea the technology available was not right for this project. The environment, energy consumption, and transaction costs were always a concern. That's why this project stayed in the drawer until Ripple announced that they would enable NFTs on the XRPL (XRP Ledger).

XRPL enables fast and environment-friendly transactions. Besides that, the cost per transaction is substantially lower than other blockchains, making it the ideal choice for MONI\$.

We are in no way connected with Ripple Labs. If you want to know more about their technology, please visit their website.

# Our vision

MONI\$ enables their community to express themselves on the internet in services that support this technology.

Unlike other collections, MONI\$ has a unique cartoon look that appeals to all ages and demographics. Our goal is to reach as many people as possible and we think we'll target many people that still don't find NFTs attractive simply due to the lack of collectables to represent them.

MONI\$ is an intersection between technology and pop culture, and that's the result of dozens of carefully crafted models. More than 200 traits were made.

These traits result in unique and surprising combinations that are intended to put a smile on people's faces.

# Minting

One of our objectives is that MONI\$ community remains active. With that concern in mind, we opted for the following distribution of the 5000 NFTs:

UP TO  
**15%**  
Team

AT LEAST  
**65%**  
Public

UP TO  
**20%**  
Giveaways and Airdrops

## Team

Up to 15% will be minted and held by the team as compensation for the work hours in the project

## Giveaways and Airdrops

Up to 20% will be minted and held for marketing purposes for giveaway contests on social media on our official channels, airdrops or compensation for key players to promote the project.

## Minting

At least 65% will be available to mint on onXRP

Clarification: The distribution above means that the MONI\$ team is free to mint up to 35% of the collection, 15% as compensation and 20% that will be held indefinitely for marketing purposes. Transactions between official wallets may occur. The 35% number will never be exceeded.

# Roadmap (COMPLETED)

## The beginning of MONI\$

August 2022

Idea, first drafts and 3D models.

---

## Branding

September 2022

Branding work is completed and the first promotion assets are created

---

## Website and Social Media

September 2022

The website design and front-end are completed and it's published. Social media accounts to promote the project are created.

---

## NFT Gold phase

October 2022

All NFTs are rendered and ready to be published.

---

## Minting

31 October 2022

The project is published and NFTs are ready to be minted.

# Roadmap

## Promotion and project exposure

We want to bring exposure and new people to the project by doing giveaways, airdrops and partnerships with other projects

---

## Expanding the MONI\$ Universe

We want this to be a community-driven project and we want to expand this universe. A game is in development and we'll launch other products related to the MONI\$ brand.

---

## Exclusive opportunities for the holders

MONI\$ holders are rewarded every month with 25% of sales royalties until the Gem tokens are launched. Hodlers also get access to exclusive airdrops, discounts and early access to MONI\$ products.

---

## MONI\$ Game

Moni's Magical Quest is in development

# ROYALTIES DISTRIBUTION

25% of the royalties generated from the sales of our NFTs, starting March 1st 2023, are distributed back to our NFT holders every month based on the number of days they own the NFT. This incentivizes holding onto the NFTs and rewards early adopters, creating a more engaged and loyal community.

The distribution always takes place in the following month and will continue until the Gem Tokens are launched. From that time onwards, MONI\$ holders who stack their MONI\$ NFTs will receive tokens as a reward.

# What we want to accomplish with MONI\$

We want to find partners in the artistic and technological fields to bring MONI\$ to life outside XRPL as a brand. We want to expand this universe to other fields of entertainment, such as videogames, short films and merchandise.

MONI\$ appeal to all demographics, and we see these silly cats as the new mascot people will love.

# MONI\$ Game

MONI\$ Game (provisory title) is a turn-based puzzle-adventure game where the player must guide Moni through challenging courses filled with traps and hazards. Along the way, you must avoid dangers and collect treasures.
